	Industrial Instrumentation Air Fuel Ratio Controllers
	Vibration Measuring & Monitoring
	Pressure Switches
  	Industrial Spark Plugs and Accessories
 	Air and Gas Starters
	Custom Built Ignition Harnesses & Leads Custom Built Pyrometer Harness Thermocouples and Thermowells Custom Built Generator and Battery Boxes Industrial 24VDC Power Generators

We offer complete service, supported by years of experience.

Shop Services

- Repair of all makes of magneto, microprocessor and digital ignition systems
- Repair of digital instrumentation
- Repair of all makes of air and gas starters
- Cleaning and testing of ignition coils
- Clean and testing of spark plugs
- Manufacture a complete line of ignition harnesses
- Manufacture and recore primary and secondary leads
- Manufacture pyrometer harnesses

Field Service

- Field Service is available 24 hours/day; 365 days/year
- On-Site installation and troubleshooting capability for ignition systems, control panels, air/gas starters, catalyst packages, air/fuel ratio controls and governor systems
- Engine emission testing and reporting
- Startup assistance for ignition systems, control panels, air/gas starters, catalyst packages and air/fuel ratio systems
- Advising and assisting in product applications
